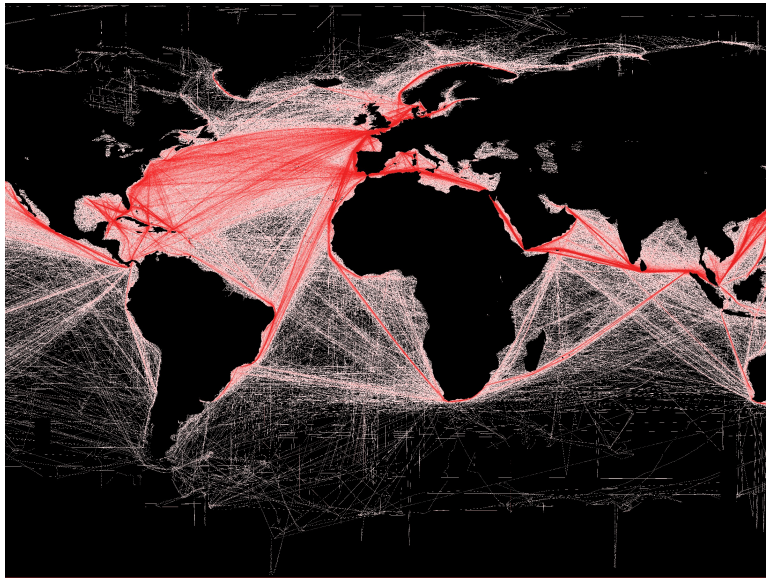
TRUST • INTEGRITY • VALUE

LONGWIN RESOURCES INTERNATIONAL TRADING PTE. LTD.

WHO WE ARE

A Singapore-based partner for connected markets.

Longwin Resources International Trading Pte. Ltd. brings together international trading and business services across energy, commodities, natural resources and asset management.



SINGAPORE BASE / INTERNATIONAL OUTLOOK

OUR APPROACH

- **Trust**
  Build durable relationships through consistent communication.
- **Integrity**
  Engage transparently and professionally at every stage.
- **Value**
  Focus on practical outcomes and responsible collaboration.

Core sectors

Energy · Commodities · Natural Stone · Services

OUR BUSINESS

Resources and expertise across six areas.

A diversified scope allows us to support a range of commercial requirements through focused, relationship-led engagement.

01

Petroleum Products

Crude oil, diesel, gasoline and other refined petroleum products.

02

Commodity Trading

General merchandise and commodities for international markets.

03

Project Consulting

Opportunity assessment, coordination and project support.

04

Marble & Granite

Natural stone quarrying and resource development.

05

Asset Management

Asset-related management and support services.

06

International Reach

Connecting buyers, suppliers and service partners across markets.

ENERGY & PETROLEUM

Supporting essential energy trade.

Longwin’s petroleum business focuses on international trade in crude oil, diesel, gasoline and other petroleum products. We work to align product requirements, counterparties and delivery terms at the outset.

PRODUCT SCOPE

- Crude oil
- Diesel and gasoil
- Gasoline
- Other refined petroleum products

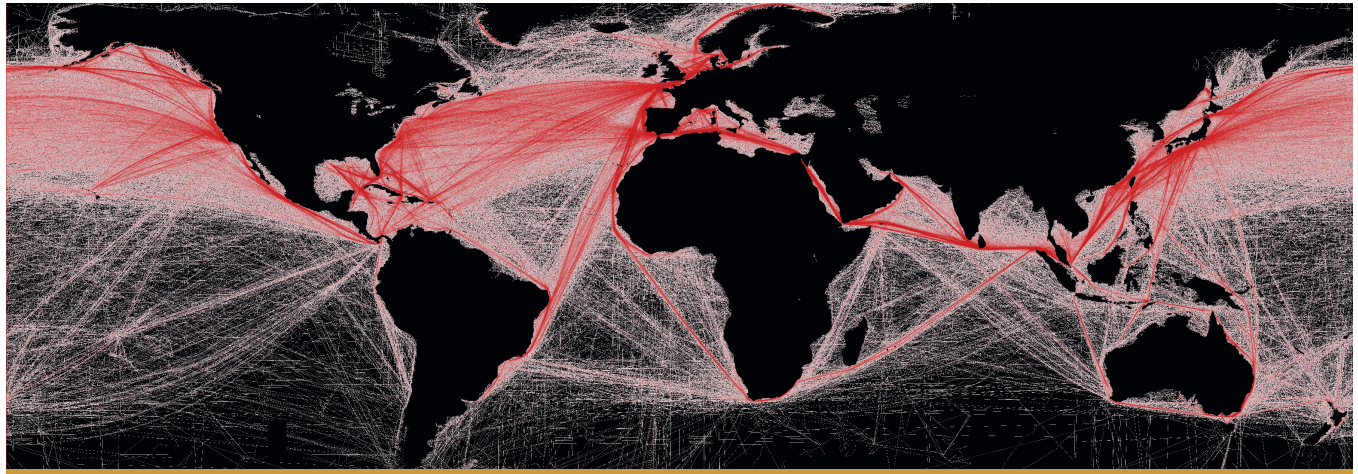
PROFESSIONAL FOCUS

Clear specifications · Counterparty coordination · Commercial terms · Delivery planning

PETROLEUM PRODUCTS / GLOBAL MARKETS

Connecting supply with delivery.

International commodity movements require coordination across product, documentation, shipping and receiving requirements. Longwin works with counterparties and service partners to help bring these elements together.



INTERNATIONAL ROUTES / PLANNING CONTEXT

MARINE COORDINATION

01 Define

Confirm product, volumes, quality and destination requirements.

02 Coordinate

Align commercial terms, documents, counterparties and logistics.

03 Deliver

Track agreed milestones and maintain clear communication.

NATURAL STONE

Marble & granite resources.

Longwin’s natural resources scope includes marble and granite quarrying. Our approach places emphasis on understanding material characteristics, site conditions and the practical requirements of responsible resource development.

NATURAL STONE / FIELD PHOTOGRAPH

STONE DETAIL

QUARRY MATERIAL

RESOURCE DEVELOPMENT LENS

Site and material understanding · Extraction planning · Quality and handling considerations · Partner coordination

CONSULTING & ASSET SERVICES

Practical support for business needs.

Our consulting and asset services are shaped around each client’s requirements. We support structured discussion, opportunity review and coordination to help clients move from initial questions toward clear next steps.

Project consulting

Assess opportunities, clarify scope and coordinate relevant parties.

Commercial coordination

Organize information, milestones and communication across stakeholders.

Asset management & services

Support asset-related requirements through a client-focused service approach.

PROFESSIONAL COLLABORATION

WORKING TOGETHER

A clear path from enquiry to execution.

Every engagement begins with understanding the brief. We aim to make responsibilities, requirements and communication clear as a commercial opportunity develops.

01

Listen

Understand objectives, product or project scope, timing and destination.

02

Align

Confirm requirements, counterparties, documentation and agreed terms.

03

Coordinate

Bring the relevant commercial and service partners into the process.

04

Follow through

Maintain communication against agreed milestones and next steps.

LET’S BUILD LASTING VALUE.
